

# AlphaSmart NEO

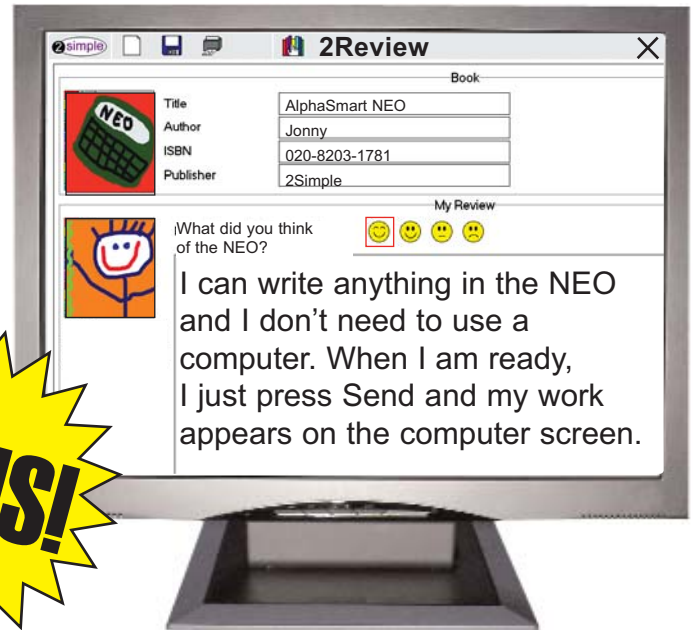

The NEO is a robust, portable keyboard with a screen. Children can type in their work and send it to a computer with a single button press. The NEO enables children to concentrate on their writing as well as freeing up the classroom computer.

- Light, rugged & portable. •
- Can run for over 700 HOURS on 3 AA batteries. •
- Single key stroke sends text straight into any word processing package. •
- Turns on instantly and recovers your files without needing to save. •
- Integrated spell check and choice of font size. •
